

ASSESSMENT PURPOSES QUICK GUIDE

Created by the ASHA CRISP Committee (2022)

The purpose of this assessment is to:

SCREENING

Determine who is at risk and needs a full diagnostic evaluation

ELIGIBILITY/ DIAGNOSIS

Determine if a disorder is present and whether an individual meets criteria for a diagnosis, level of impairment, or services

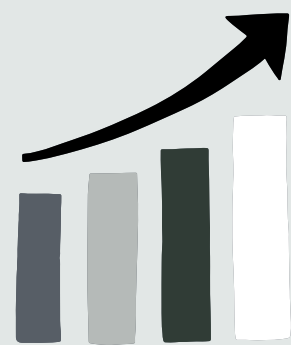

INTERVENTION PLANNING

Determine what needs improvement or support in intervention

PROGRESS MONITORING

Determine if progress is being made and whether the intervention approach is working

OUTCOMES MEASUREMENT

Determine if the intervention/ supports are having a real-world impact

PROGRAM EVALUATION

Determine if an entire program is working and what, if anything, needs to be altered to improve effectiveness or service delivery
